Dear Dr. _____,

Thank you very much for the time you and your team spent with me on September 18th. After discussing the research position you have available, I am convinced that the Erlanger Institute is where I would like to begin my research career.

I am particularly excited about using my pharmacological studies and previous laboratory experience to contribute to the work of such a knowledgeable and motivated team. Please let me know if you would like any additional information or references. I look forward to hearing from you.
